

Preparing for the Hot Summer Months

Now that winter's over and summer is approaching, it's time to make sure your central air conditioner is in good working order. Following these simple maintenance tips ensures it runs smoothly, which not only ensures you're able to beat the heat but also lowers your energy bills and helps avoid any major repairs down the line. On our blog we are detailing 5 ways to get your central air conditioner ready for summer.

- Change the Filters
- Clean the Condenser Coils
- Clean the Drain
- Remove Debris Around the Unit
- Check the Condenser Level

We have another way for you to beat the heat!

Stay cool this summer with our portable cell phone fan. This powerful little fan is a special offer for our loyal customers.

When hot summer days arrive, they are with us no matter where we go: pool, beach, amusement parks, fairs, company picnics, etc. Wherever it is, you'll keep cool with this portable cell phone fan. It's powerful, but lightweight and compact so you can easily throw it in your purse, bag, or pocket to have on hand when you need it.

This mini fan includes a 3-in-1 adapter that works with Micro USB, Type C, and Lightning ports and is a special promotion for our loyal customers only! Be one of the first 250 customers to complete the form at <https://www.agwayenergy.com/keepcool/>, and an Agway branded fan will be mailed out to you.

Not a current customer, but would like to participate in offerings like this, as well as having the included repair protection of EnergyGuard™? Sign-up today to become a new customer.

LET'S CELEBRATE CINCO DE MAYO

Our employee, Denette S. from our Syracuse, NY office, submitted this lip-smacking recipe for Taco Lasagna.

Also check out David's Guacamole, and lots of other mouth-watering recipes, on our parent company's (Suburban Propane) Cooked on Propane blog: <https://www.suburbanpropane.com/blog/davids-guacamole/>

Cooked on Propane

Taco Lasagna

Prep time: 20 mins Cooking time: 25-30 mins

Bake at 350 degrees for 25-30 minutes

Ingredients:

- 1 package of large soft tortillas
- 1 package of taco seasoning
- 1 & ½ lb of ground beef
- 1 - 16 oz bottle of taco sauce (mild, medium or hot)
- Bag of shredded lettuce or a head of lettuce thinly sliced
- 8 oz bag of shredded cheese (Mexican blend or Cheddar)
- Sour cream

Directions:

On the stovetop cook the ground beef, add taco seasoning and water per package instructions. In a pie pan or round casserole dish, spray or grease the bottom, then build the lasagna. Start with a tortilla as the base, then layer with meat and sprinkle some shredded cheese, and repeat two more layers. Top with a tortilla, pour taco sauce over the top, sprinkle with the rest of the shredded cheese, and bake for 20-25 minutes at 350 degrees. Serve with shredded lettuce and dollop of sour cream, and drizzle a little taco sauce (or salsa).

Never used the included protection of EnergyGuard™?
